Introduction and Background

Federal grants and cooperative agreements exceeded \$740 billion¹ in FY 2018 nationwide and were awarded by dozens of federal agencies. Included in the calculations of total federal grant funding are block grants, formula grants, project grants (or competitive), and cooperative agreements (or pass-through). Not included in this summary of grant funds are direct payments (like Social Security or housing vouchers), loans, insurance, or procurement contracts.

The largest use of federal grant funds is for medical payments through Medicare and Medicaid, followed by transportation. Education, housing assistance, agricultural support, food and nutrition, utilities, emergency management and disaster relief, the environmental, museums and libraries, arts and humanities, and children and family services are also major beneficiaries of federal funds. Federal grants also pay for medical research through the NIH, aeronautics research through NASA, energy research through the Department of Energy, law enforcement initiatives through the Department of Justice, diplomatic initiatives through the Department of State, foreign aid through the USAID, and many other efforts.

Of the over \$700 billion in grants and cooperative agreements awarded by the federal government in FY 2018, California was awarded over \$100 billion through tens of thousands of individual awards², similar to FY 2017. Compared to its federal tax revenues, California is in the middle third of states in terms of federal grants received, and federal grants average over \$2,500 per capita in the state, greater than the national average.

Assembly Bill 1348 (Irwin, Chapter 444, Statutes of 2016)³, authorized the State Clearinghouse, located within the Governor's Office of Planning and Research (OPR), to establish a Federal Grant Administrator to serve as a primary point of contact for information on federal grants related to community, economic, and local development. Several states, including Arizona, Maryland, Massachusetts, Nevada, and Rhode Island, have already created a Federal Grant Office to maximize their state's federal grant opportunities. These offices work to remove federal grant administration hurdles by providing grant support, such as identifying funding opportunities, developing collaborations, coordinating grant activities with multiple stakeholders, and tracking and organizing data.⁴

This summary of federal grant funding identifies and analyzes performance metrics for the funding year as outlined in the statute:

"On or before January 1, 2018, and annually thereafter, the Federal Grant Administrator shall prepare a summary of federal grant funding to the state that includes, but is not limited to, all of the following performance metrics:

(1) Number of federal grants awarded to the state during the three years prior to the establishment of the Federal Grant Administrator and during the report year.

⁴ Department of Administration, Office of Grant Procurement, Coordination, and Management, Nevada Grants Office, <http://grant.nv.gov/>.

- (2) Number of completed federal grant applications submitted by the state during the report year.
- (3) Total federal dollars received by the state through federal grants during the report year.
- (4) Total federal grant dollars expended by the state during the report year.
- (5) Total federal grant dollars received in the state by school districts and local governments during the report year.
- (6) Number of training sessions hosted by the Federal Grant Administrator and attendance at those events during the report year.
- (7) Other relevant information regarding federal grant activities within the state during the report year, as determined by the federal grant administrator.”⁵

The “report year” for this 2019 report is federal fiscal year 2018 (October 2017 to September 2018). Sources for this report included a network of statewide agency partners, the California Department of Finance, the California State Controller’s Office, USAspending.gov, grants.gov, the Federal Audit Clearinghouse, Federal Funds Information for States, federal grant-making agencies, and other sources of information to collect and analyze the data reflected in this report. Throughout this report, the terms grants, funds, funding, dollars, aid, assistance, and awards may be used interchangeably. Revenues refers to funds received, and expenditures refers to funds spent by the recipient.

OPR Federal Grant Resources

The State Clearinghouse serves as the state's Single Point of Contact for the review of federal assistance applications pursuant to Presidential Executive Order No. 12372. Notification of all federal assistance applications must be provided to the SCH pursuant to Assembly Bill No. 1348, which in turn publishes this information for review and comment by State and local elected officials. SAM Section 0912 requires that departments submit new federal funds through the SCH and then through Finance through a Standard Form 424 notification prior to applying for funds.

The OPR website contains a [page for Intergovernmental Review of Federal Programs](#) where all applicants to federal grant programs shall provide notification prior to applying for funds.

Information on federal grant opportunities, grant management, and other resources is also provided on the [OPR Federal Assistance webpage](#) to assist organizations in obtaining and managing federal grants.

⁵ Assembly Bill 1348 (Irwin, Chapter 444, Statutes of 2016).

Federal Grants Awarded

In FY 2018, California received over \$101 billion in federal grant awards, similar to 2017. These funds went to the state government, school districts, county and other local governments, special districts, institutions of higher education, nonprofit organizations, foundations, or private businesses. As listed in Table 1, these funds were awarded by 28 federal agencies. HHS awarded the most grant funding to California at over \$77 billion, followed by the Department of Transportation at nearly \$7 billion.

The United States collected almost \$3.5 trillion in tax revenue in FY 2018 and distributed \$741 billion in grants, or 21% of its revenue. California generated over \$456 billion in federal tax revenue and received over \$101 billion in grants, or 22% of its tax revenue. On a state-by-state comparison, California falls within the middle third of states on the measure of grants as a percentage of federal tax revenue, as shown in Table 2. The median percentage was 28%.

Based on USASpending.gov data and 2018 population estimates, California received approximately \$2,600 in grant funding per capita compared to an estimated \$2,300 nationwide.

School Districts and Local Governments

School Districts

Of the over \$100 billion in federal grants received by California, approximately \$7 billion of that was dedicated to schools. This includes \$3.8 billion dedicated to public school districts, over \$700 million dedicated to county offices of education, and \$2.5 billion in nutrition assistance. Federal grants are primarily received from ED and USDA with other grant funding awarded from DOJ, DOL, NSF, EPA, HHS, and DHS. The full list of federal revenues by school district is listed in Appendix A.

School districts in California receive the vast majority of their general fund revenues from state and local sources. Federal grant funding provided about \$3.8 billion in FY 2018, just over 5% of total revenues, as listed in Table 3.

See Appendix C for the full list of cities that received federal revenue in FY 2018 and the amount received.

Special districts in California received \$1.24 billion in federal grant funding in FY 2018. These special districts include organizations responsible for transportation, human services, fire protection, air quality, lighting, cemeteries, and other services. The Los Angeles County Metropolitan Transportation Authority (Metro) was the largest recipient of federal grants with over \$300 million in revenue.

Federal grant revenue to special districts primarily was dedicated to transit and governmental functions, as shown in the table below.

Federal Grant Expenditures by the State

The California Department of Finance, on behalf of the California State government, is responsible for collecting federal expenditure information each year from State departments and agencies that received federal dollars in accordance with the Single Audit Act of 1984 (as amended in 1996) and the OMB's Uniform Guidance. This information is provided for the fiscal year ending on June 30th, unlike the federal fiscal year used elsewhere in this report.

The State government reported federal expenditures of over \$93.7 billion in FY 2018, representing the vast majority of the estimated \$101 billion allocated to the state. The federal agency providing the largest source of funding was HHS at over \$65.8 billion, over two-thirds of all federal expenditures by the State.

The largest single federal program expenditure is the HHS Medical Assistance Program (CFDA 93.778) that provides Medicare and Medicaid payments. This program totals \$53.5 billion, or more than half of all federal expenditures of the state. Table 12 below lists the top ten federal programs in terms of expenditures in FY 2018, and Appendix E lists all State expenditures of federal funds by Catalog of Federal Domestic Assistance (CFDA) program number.

There are over 60 State agencies and departments that spent an estimated \$92.4 billion in federal funds in FY 2018. The full list of State agencies/departments and their federal expenditures are listed in Appendix F. These agencies/departments are organized into eleven areas of government, and these areas are listed in Table 13 with the total federal expenditures for each (in thousands of dollars).

Federal Grant Applications Submitted

State agencies and departments applied for 466 federal grants in FY 2018, most of which were successfully awarded based on data reported by each agency/department. The majority of these grants were competitive project grants. The Department of Fish and Wildlife applied for and was awarded the greatest number of federal grants with 100 applications and 98 awards. The full summary of applications by department is listed in Appendix G.

Not included in this table is the University of California system, which submitted a total of 10,597 proposals for federal contracts and grants in FY 2018, of which 4,441 (42%) have been awarded to date.

There were over 2,200 grant opportunities open on grants.gov during FY2018, excluding sole source awards and grants not eligible for California entities. Requests for information on California applications and awards were requested for all of these opportunities, and competition results were received at the time of printing for 513 grant programs⁷. Of those grants for which competitive statistics were provided, California entities applied to at least 357 grant programs and were awarded grants in 248 grant programs (some programs of which awarded multiple individual grants to California entities).

Training Sessions

There was one training session provided during the FY 2018 report year in September 2018, which was described in the previous annual report. This online webinar titled “How to Limit Audit Findings” was attended by 128 attendees out of 165 registrants. The training discussed common audit findings, how to avoid them, and best practices for managing federal grant agreements.

⁷ The NASA ROSES grant program has over 100 different grants that were summarized into one program for these purposes.

Appendix A: FY 2018 School Federal Revenues

This table reflects over a billion more dollars in revenue than in the summaries listed in Tables 3 through 6 owing to different data sources.

Appendix G: FY 2018 Federal Grant Applications Submitted

State agencies and departments submitted 455 applications for federal grants in FY 2018 and were awarded 388 grants. These numbers include only applications for which the agency was the primary applicant. Where a smaller number is shown under applications than awards, that indicates the application was in a prior year.
